Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant's Amendment to application 09/683,546 has been examined. The drawings are amended. Claim 23 is cancelled. Claim 30 is added. Claims 1-22, 24-30 are pending.

1. Applicant's Amendment, considered persuasive, obviates many of the existing rejections and objections.

Claim Objections

2. The following claims are objected to: Pursuant to claim 6, delete the hyphen after "of". Pursuant to claim 2, 13, 28, "DC characteristics" lack antecedent basis. and 13, this claim limitation uses the parameter dc_impedance and dc_base without any indication of the meaning of these parameters. Pursuant to claim 3 and 14, Applicant reference "the transient impedance" and "the transient conductance" (respectively) and this reference not only lacks antecedent basis, but also lacks structural/functional relationship to the overall claim. Pursuant to claim 17, wave-forms should be one word (without the hyphen). Additionally, pursuant to claim 6, specify whether the "time" is local or not. Pursuant to claims 1, 12, and 30, "the behavior. . ." lacks sufficient antecedent basis. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 2825

4. Claims 13, 28 and 29 are rejected under 35 U.S.C. 112, second paragraph, as failing to claim Applicant's invention. Pursuant to claims 13, 28 and 29, Applicant's specification does not provide support for the equation for dc_conductance.

Response to Remarks

5. Applicant's amendment overcomes the prior art and places the claims in a significantly better form for allowance. However, the outstanding rejections and objections outlined supra, still preclude allowability.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
